

Received 40,300 govt requests for user data from India: Facebook

PRESS TRUST OF INDIA
New Delhi, May 20

SOCIAL MEDIA GIANT Facebook said it has received 40,300 requests from the Indian government for user data in the second half of 2020.

This was 13.3% higher from the January-June 2020 period when India had made 35,560 total requests, according to the Facebook's latest Transparency Report.

The US-based company restricted access to 878 items in India during the second half of 2020 in response to directions from the IT Ministry for violating Section 69A of the Information Technology Act, 2000, including content against security of the state and public order.

According to the report, India made 40,300 total requests in the July-December 2020 period, of which 37,865 were legal process requests and 2,435 were emergency disclosure requests.

The number of total requests made by India ranked second to the US, which had made 61,262 requests during the July-December 2020 period.

Globally, government requests for user data increased by about 10% to 191,013 in the second half of 2020 from 173,592 in the first half of 2020.

Information related to 62,754 users/accounts were requested in India, and some data was produced for 52% of the requests.

"Facebook responds to government requests for data in accordance with applicable law and our terms of service. Each and every request we receive is carefully reviewed for legal sufficiency and we may reject or require greater specificity on requests that appear overly broad or vague," the report said.

Facebook said that during the July-December 2020 period, it had "restricted access in India to 878 items in response to directions from the Ministry of Electronics and Information Technology for violating Section 69A of the Information Technology Act, 2000, including content against security of the state and public order."

Sops for semiconductor and display fabs in six months

KIRAN RATHEE
New Delhi, May 20

THE MINISTRY OF Electronics and IT (MeitY) is going to come out with incentive schemes for setting up display and semiconductor fabrication units in the country in the next six months. According to MeitY secretary Ajay Prakash Sawhney, the government is already doing the preparatory work and talking to the industry about the support required to set up the fabs. Separate ex-

pression of interests (EoIs) has been floated for display and semiconductor fabs and companies, both global and local, are showing keen interest to set up units in India.

"We are working to formalize an incentive structure for setting up display as well as semiconductor fabs in the country. In the coming six months, we will try to come out with a concrete proposal," Sawhney told FE. He added they are getting good response from both global and local

firms in response to EoIs. He, however, did not share names of companies, which have applied as part of EoI.

The government is targeting companies including Samsung, Infineon, ST Microelectronics, Panasonic, Taiwan Semiconductor Manufacturing Company (TSMC), Intel, Vanguard, Texas Instruments among others to set up their semiconductor fabs in India.

For display units, the government is seeking interest from companies to set up LCD/OLED/AMOLED/QLED based display fabrication units in India.

As per information shared by the government, displays constitute a significant portion of the

total bill of materials (BoM) in electronic products. For instance, displays account for over 25% of the BoM in the case of smartphones and over 50% in the case of LCD/LED TVs.

As per a report launched by industry association ICEA, in collaboration with Grantwood Technologies, the domestic consumption of display components exceeded \$5 billion in 2020 alone.

The demand for display components in India is expected to sharply rise over the

next five years, which is estimated to be much greater than \$10 billion in 2025, mainly resulting from the "Make-in-India" national strategy to promote electronic manufacturing.

The report highlights that India has steadily grown into a leading consumer market for display-centric products. However, India does not currently have a local display manufacturing industry and all display components have to be imported from overseas suppliers.

Retail inflation for farm, rural workers eases a tad in April

RETAIL INFLATION FOR farm workers and rural labourers in April eased marginally to 2.66% and 2.94%, respectively, mainly due to lower prices of certain food items.

"Point-to-point rate of inflation based on the CPI-AL (Consumer Price Index for Agricultural Labourers) and CPI-RL (Consumer Price Index for Rural Labourers) decreased to 2.66% and 2.94% in April 2021, from 2.78% and 2.96%, respectively, in March, 2021," the labour ministry said in

a statement. Food inflation based on CPI-AL and CPI-RL stood at 1.24% and 1.54% in April 2021, respectively, it added.

The change in the index varied from state to state. In the case of agricultural labourers, it recorded an increase in the range of 1-17 points in 16 states and a decrease of 1-4 points in four states. Tamil Nadu, with 1,249 points, topped the index; whereas Himachal Pradesh, with 813 points, stood at the bottom.
